PROFESSIONAL SUMMARY

Aspiring Data Science Engineer and 2026 B.Tech Computer Science graduate with a strong foundation in Machine Learning, Data Analytics, and Python. Experienced in developing predictive models, performing data preprocessing, and architecting scalable data-driven solutions. Proven ability to integrate AI tools and automate workflows, combining technical proficiency in Python, SQL, and advanced analytics to drive data-backed operational efficiency.

TECHNICAL SKILLS

Python, Machine Learning, Data Analytics, SQL, Pandas, Scikit-Learn, Data Structures & Algorithms, DBMS, Salesforce (Apex, SOQL, Flows, Agentforce), RestAPI, Git, GitHub, C++, Object-Oriented Programming, Operating Systems, Computer Networks

EXPERIENCE

Salesforce Developer Intern - Jaguar Land Rover Project | Tata Consultancy Services | Jan 2026 - Jul 2026

- Leveraged Python and data-driven logic within Salesforce to automate complex business processes and enhance analytical reporting capabilities.
- Architected CRM data models and implemented automated test suites using Apex, ensuring high code coverage and data integrity for scalable enterprise platforms.

Software Development Intern | Glow Genesis Skincare Pvt. Ltd. | Sept 2024 - Feb 2025

- Engineered backend API integrations to support data-intensive mobile application features, focusing on performance optimization and responsive data handling.
- Collaborated with cross-functional teams to resolve application bottlenecks, utilizing analytical debugging techniques to improve overall system stability.

PROJECTS

Customer Churn Prediction Platforms | 2025

- Developed a robust Machine Learning platform using Python, Pandas, and Scikit-Learn to perform predictive analytics on 7,000+ customer records.
- Executed end-to-end data preprocessing, feature engineering, and predictive modeling to identify churn patterns, delivering actionable insights through data visualization dashboards.

Generative AI Job Application Assistant | 2025

- Built an AI-driven analytics tool using Google Gemini to perform NLP-based resume parsing, candidate-job matching, and data extraction.
- Optimized content relevance and skill alignment through automated data processing, ensuring high-accuracy matching for complex job requirements.

Railway Station Navigation System (Capstone Project) | 2026

- Designed a scalable navigation solution utilizing A* routing algorithms and FastAPI to manage real-time spatial data and path optimization.
- Implemented efficient data structures to reduce response latency, ensuring high-performance navigation updates for multi-point indoor environments.

EDUCATION

B.Tech Computer Science & Business Systems — JSPM's Rajarshi Shahu College of Engineering, Pune (Nov 2022 - June 2026) - CGPA: 9.02

Higher Secondary Examination, CBSE — Army Public School, Devlali (April 2020 - June 2022) - Percentage: 83.4%

CERTIFICATIONS & LEADERSHIP

- Salesforce Certified Agentforce Specialist (Dec 2025)
- Co-Organizer, TEDxJSPMRSCOE (2024-2025)
- Training and Placement Co-ordinator, RSCOE (2024-2025)
