PROFESSIONAL SUMMARY

Highly skilled Python Backend Developer with deep expertise in building scalable APIs using FastAPI and implementing Machine Learning models with Pandas and Scikit-learn. Proficient in SQL database management and Git version control, with a proven track record of architecting data-driven backend solutions, integrating complex RESTful APIs, and optimizing system performance for operational efficiency.

TECHNICAL SKILLS

Python, FastAPI, Pandas, Scikit-learn, SQL (MySQL, SOQL), Git, GitHub, RestAPI, Data Structures & Algorithms, DBMS, Object-Oriented Programming, n8n, Zapier, Flutter, Apex, Salesforce, C++, Operating Systems, Computer Networks, VS Code

EXPERIENCE

Salesforce Developer Intern - Jaguar Land Rover Project | Tata Consultancy Services | Jan 2026 - Jul 2026

- Developed backend logic and customized enterprise solutions using Apex and SOQL (SQL) to automate complex business processes and improve data retrieval efficiency.
- Architected CRM automation workflows and implemented automated test suites for API integrations, ensuring high code coverage and a stable, scalable backend platform.

Software Development Intern | Glow Genesis Skincare Pvt. Ltd. | Sept 2024 - Feb 2025

- Engineered backend API integrations for mobile applications, optimizing data flow and improving application responsiveness and overall performance.
- Resolved complex backend issues and collaborated with the development team to deliver stable, scalable, and high-performance software solutions using Git for version control.

PROJECTS

Railway Station Navigation System (FastAPI Backend) | 2026

- Architected and optimized high-performance FastAPI APIs for real-time route generation and navigation updates, significantly reducing response latency for indoor navigation.
- Designed a scalable backend infrastructure using Python to handle multi-point routing logic and A* algorithms, ensuring seamless API integration with the frontend.

Customer Churn Prediction Platform (ML & Data Science) | 2025

- Developed a robust Python backend for a churn prediction platform using Pandas and Scikit-learn to process and analyze 7,000+ SQL records.
- Implemented data preprocessing pipelines and predictive machine learning models to identify at-risk customers, utilizing SQL for data management and actionable insights.

Generative AI Job Application Assistant | 2025

- Built a Python-based AI assistant utilizing Google Gemini and NLP to extract job requirements and perform candidate-job matching via structured JSON data.
- Developed automated backend scripts for content enhancement and keyword optimization to improve ATS compatibility and skill alignment for technical roles.

EDUCATION

B.Tech Computer Science & Business Systems — JSPM's Rajarshi Shahu College of Engineering, Pune (Nov 2022 - June 2026) - CGPA: 9.02

Higher Secondary Examination, CBSE — Army Public School, Devlali (April 2020 - June 2022) - Percentage: 83.4%

CERTIFICATIONS & LEADERSHIP

- Salesforce Certified Agentforce Specialist (Dec 2025)
- Co-Organizer, TEDxJSPMRSCOE (2024-2025)
- Training and Placement Co-ordinator, RSCOE (2024-2025)
