PROFESSIONAL SUMMARY

Software Engineer with a strong foundation in Software Development, specializing in Python, Salesforce (Apex), and Java. Experienced in architecting scalable CRM automation workflows, developing robust backend systems, and integrating complex enterprise solutions. Proven ability to leverage Python for data-driven applications and Salesforce for high-impact business process automation.

TECHNICAL SKILLS

Python, Salesforce (Apex, SOQL, Flows, Agentforce), Java, MySQL, RestAPI, Git, GitHub, VS Code, n8n, Zapier, Make.com, Flutter, Unity, Data Structures & Algorithms, Operating Systems, DBMS, Object-Oriented Programming, Computer Networks

EXPERIENCE

Salesforce Developer Intern - Jaguar Land Rover Project | Tata Consultancy Services | Jan 2026 - Jul 2026

- Executed end-to-end Software Development within the Salesforce ecosystem, utilizing Apex and SOQL to build scalable enterprise solutions.
- Architected complex CRM automation workflows and implemented automated test suites for Apex integrations, ensuring high code coverage and platform stability.
- Collaborated on Salesforce-based business process automation, directly contributing to the Software Development lifecycle for the Jaguar Land Rover project.

Software Development Intern | Glow Genesis Skincare Pvt. Ltd. | Sept 2024 - Feb 2025

- Applied Software Development best practices to enhance mobile application performance and backend responsiveness.
- Integrated RESTful APIs and utilized Python-based scripting to resolve application issues and improve data synchronization.
- Collaborated with cross-functional teams to deliver scalable mobile solutions, focusing on clean code and efficient system architecture.

PROJECTS

Railway Station Navigation System (Capstone Project) | 2026

- Led Software Development for an AR navigation solution, utilizing Python-based FastAPI for backend route generation and system logic.
- Implemented scalable data structures and algorithms to optimize pathfinding, reducing latency in real-time navigation updates.

Customer Churn Prediction Platforms | 2025

- Engineered a predictive platform using Python, Pandas, and SQL to process and analyze large-scale customer datasets.
- Applied Software Development principles to build a robust data pipeline, enabling actionable insights for customer retention.

Generative AI Job Application Assistant | 2025

- Developed an AI-driven application using Python to automate resume parsing and job requirement matching.
- Integrated NLP-based content enhancement tools to ensure high-quality, keyword-optimized output for Software Development job applications.

EDUCATION

B.Tech Computer Science & Business Systems — JSPM's Rajarshi Shahu College of Engineering, Pune (Nov 2022 - June 2026) - CGPA: 9.02

Higher Secondary Examination, CBSE — Army Public School, Devlali (April 2020 - June 2022) - Percentage: 83.4%

CERTIFICATIONS & LEADERSHIP

- Salesforce Certified Agentforce Specialist (Dec 2025)
- Co-Organizer, TEDxJSPMRSCOE (2024-2025)
- Training and Placement Co-ordinator, RSCOE (2024-2025)
